To Whom It May Concern:

MLC Construction helped bring our dream to a reality. Our small home was transformed into a majestic beach house almost twice the size of the original. Under Dub Hadden's supervision and his constant attention to our requests the transformation was made easier than I could have imagined. Dub's 26 years of building knowledge was evident during all stages of construction. Amy and I knew our costs at all times because changes were documented and presented in a timely manner.

I have currently recommended MLC Construction to several friends who are interested in various renovations. Additionally, I would not hesitate to recommend MLC Construction to friends or family for new home construction.

Please feel free to call me at 321-784-0145.
