To Whom It May Concern:

MLC Construction did an excellent job remodeling my father's condo kitchen and bathroom. The owners, Dub and LouAnn, were attentive to my requirements and my father's needs. They made suggestions regarding the cabinets, the countertops, the bathroom sink, the appliances and the lighting in both rooms. They brought samples of floor tile, paint and countertops to us, along with an appliance catalog, so we wouldn't have to spend our time driving.

The work schedule was completed quickly with professional subcontractors and employees, and we felt that we were being given personal attention to details throughout the project.

I am able to recommend MLC Construction for remodeling without hesitation.

Sincerely,

Kathy Michel
